

Here With Me

Jason Michael Carroll

You said I remember, the first time that we kissed
And held each other tight
And even when my jokes were bad, they made you smile
And I won't deny, you changed my life
You've been beside me
Through so many things most people never could
If you could change the way things are, I know you would
Then close his eyes, and said as he cried

I don't know where I'd be
If you weren't, here with me
I know that you're all I'll ever need
Say you'll stay, here with me

But she started thinking
About the plans they'd made, and things they never do
Say all this time I've never given up on you
When clouds are gray, your sky still blue
We'll see this through

Cause I don't know where I'd be
If you weren't, here with me
I know that you're all I'll ever need
Say you'll stay, here with me

These vows of love passed his last breath
And that was the promise that he kept
Cause she feels him in her memories and dreams
Looks at his picture and says

I don't know where I'd be
If you weren't, here with me
I know that you're all I'll ever need
Say you'll stay, here with me

I don't know where I'd be
If you weren't, here with me
I know that you're all I'll ever need
Say you'll stay, say you'll stay
Here with me
