Say Love

Jason Reeves

So you've dreamed that love was great as stars
So you wake to find this is all that you are

Well I just want to be what you think of when you smile
And I just want to be what's reflected in your eyes

But I can't sit still
Let you pass me by
I can't dream if you're not on my mind
If I can't see you then I'd feel blind
I need your light

If you would just say, "Love"
If you would just say, "Love"
Baby say, "Love"
I would fall for you
I would fall for you

But I can't sit still
Let you pass me by
I can't dream if you're not on my mind
If I can't see you then I'd feel blind
I need your light

If you would just say, "Love"
If you would just say, "Love"
Baby if you would just say, "Love"
I would fall for you
I would fall for you

Say, "Love"
Say
Say, "Love"
Say
Say
