

After Midnight

Jason Walker

It's just me in this dark room
All these stars to walk through
To me it all seems clearer
As the night comes near
Any man and you might
Float my head and stop time
Will you meet me here?
Get lost in this my dear

I'll be waiting in between here and forever
I'll keep saving myself for you
Come with me, these are the moments of surrender
That we only find after midnight

We can chase back time
And are overlit
Will you stay right here?
Or let it last my dear?

I'll be waiting in between here and forever
I'll keep saving myself for you
Come with me, these are the moments of surrender
That we only find after midnight

I wake up when the stars are flying
Over us wasting flows and while we watch time run
This is where we come alive

I'll be waiting in between here and forever
I'll keep saving myself for you
Come with me, these are the moments of surrender
That we only find after midnight
After midnight. After midnight
I'll be waiting
