

Brave Soul

Jason Walker

One brave soul
It just takes one brave soul
In all the millions
Standin' alone, mmh-hm
One brave soul
It just takes one brave soul
To break the system
To shape the mold

There's a call
If you listen deep inside us all
We're fast asleep inside these walls
Waitin' for the moment
Just waitin' for the moment, to fall

One brave soul
It just takes one brave soul
In all the millions
Standin' alone, mmh-hm
One brave soul
It just takes one brave soul
To break the system
To shape the mold

Steppin' out
Someone's gotta be the first to shout
When everything is goin' down
Waitin' for the moment, yeah
Just waitin' for the moment, now

One brave soul
It just takes one brave soul
In all the millions
Standin' alone, oh-oh
One brave soul
It just takes one brave soul
To break the system
To shape the mold

One brave soul
It just takes one brave soul
In all the millions
Standin' alone, oh-oh
One brave soul
It just takes one brave soul
To break the system
To shape the mold
