

One Step Closer

Jason Walker

The world can push and pull us all apart
Mmh-mmh-mmh
We're closer than we'll both admit we are
Mmh-mmh-mmh

'Cause these differin' roads lead us back to the same place
And I'm just a fool with the dream that I still chase, yeah
Feels like a universe apart, yeah
Feels like a universe apart, yeah

We're not so different, you and I
If we can just erase the lines
Between us (oh-oh)
I see my reflection on your face
And I'll keep runnin' till there's no space
Between us (oh-oh)

Tired of passin' you like shapes in the night
Yeah-yeah-yeah, yeah
Love, it goes so deep, but the ocean's wide

'Cause these differin' roads lead us back to the same place
And I'm just a fool with the dream that I still chase, yeah
Feels like a universe apart
Feels like a universe apart

We're not so different, you and I
If we can just erase the lines
Between us (oh-oh)
I see my reflection on your face
And I'll keep runnin' till there's no space
Between us (oh-oh)

Am I one step,
Am I one step closer?
One step
Am I one step closer? (oh-oh)
One step
Am I one step closer?
One step closer
One step closer (oh-oh)
One step
Am I one step closer?
One step
And I'll keep runnin' till there's no space
Between us
One step
One step closer

One step
Am I one step closer?
One step
Am I one step closer?
One step
Am I one step closer?
One step closer
One step closer

One step
Am I one step closer?
One step
Am I one step closer?
One step
One step
One step
One step closer

We're not so different, you and I
If we can just erase the lines (if we can just erase the lines)
Between us (if we can just erase the lines) (oh-oh)
I see my reflection on your face
And I'll keep runnin' till there's no space
Between us (till there's no, there's no space between us) (oh-oh)

We're not so different, you and I
If we can just erase the lines
Between us (oh-oh)
I see my reflection on your face
And I'll keep runnin' till there's no space
Between us (oh-oh)
