

# Search Light

Jason Walker

Hope feels far, so far  
Out in the distance  
Without a witness  
The sky above so dark  
The answer is hiding  
Pitch black and blinding

Sending a search light  
I'm gonna find you  
Wherever you are now  
Is where I will run to  
Sending a search light  
I'm gonna find you  
You're out in the dark  
I'm gonna find you

I'm crossing x's off  
Off of the atlas  
Places I have been  
I'd tear the world apart  
Following footsteps  
Chase any trace left

Sending a search light  
I'm gonna find you  
Wherever you are now  
Is where I will run to  
Sending a search light  
I'm gonna find you  
You're out in the dark  
I'm gonna find you

I'm gonna find you

I've been on the outside  
Looking for a long time  
Looking for you  
Looking for you  
Darlin', if you look up  
Do it if you can 'cause  
I'm looking for you  
Looking for you

Sending a search light  
I'm gonna find you  
Wherever you are now  
Is where I will run to  
Sending a search light  
I'm gonna find you  
You're out in the dark  
I'm gonna find you

I'm gonna find you
