Jason Walker

Oh, heart of mine  
I carry the weight of your mistakes in my eyes  
So don't lie to me  
Cause lies still reveal what you conceal in time, you see

Fight, flight, or freeze  
Won't you just melt the cold in your soul and come clean  
Hear, see, and touch  
I've got your back against a wall is this where love is not enough

Please tell me this  
All I need is this

Stand then fall  
Sometimes the only way to love is let love just evolve  
Let it breathe  
I can't keep holding on to you while you're pulling out of reach

Please tell me this, this  
All I need is this

Quicksand where's the palm of your hand, don't  
Don't go would you give it a chance, just  
Just speak, start talking to me  
Start talking to me

Quicksand where's the palm of your hand, don't  
Don't go would you give it a chance, just  
Just speak, start talking to me  
Start talking to me

Please tell me this  
All I need is this, this

Please tell me this, oh this  
'Cause all I need is this
