

# Walk the Line

Jason Walker

So this is where I stand  
Between hell and heaven's end  
With each step I take a chance  
Don't know which way I'll end

We're at the point of no return  
A prison I will burn  
My arms are open wide  
I've got no fear  
As long as you are near  
I'm calling you my dear

Come walk the line with me  
For you I'd win it all  
Or lose everything  
We can find the balance inbetween  
If we walk the line  
Oooh-oooh  
If we walk the line

If we walk the line

Nothing comes easily  
We're running from the fire  
Beneath our feet

The answer is in our reach  
Together we'll take the heat

We're at the point of no return  
A prison I will burn  
My arms are open wide  
I've got no fear  
As long as you are near  
I'm calling you my dear

Come walk the line with me  
For you I'd win it all  
Or lose everything  
We can find the balance inbetween  
If we walk the line  
Oooh-oooh  
If we walk the line

If we walk the line

If we walk the line

If we walk the line

Caught in the middle of dark and light  
I'll never let you go  
We'll make it to heaven  
But we have to try  
We're not far away from home

Come walk the line with me

For you I'd win it all  
Or lose everything  
We can find the balance inbetween  
If we walk the line  
Oooh-oooh  
If we walk the line
