Dance For Me

Javier Colon

Let me play you something to make you keep your body moving Winding, keeping my attention Girl, if I keep playing, will you keep doing what you doing? Ooh, wee, so much more than sexy

She's inspiration Every twist of your waist Yeah

Makes the chord that I play Change Like you're controlling me Strange

Effectuation
Started to kick in
I wanna strum you
Like this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

Let me play you something, yeah Dancing, keep you wanting This here strumming, stroking Imagination

When we take this to the crib Let the music take your inhibition Willfully But now just dance for me

She's inspiration Every twist of your waist Uh

Makes the chord that I play Change Like you're controlling me Strange

Infatuation
Started to kick in
I wanna strum you
Like this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

It's so
Hard to concentrate
And girl, you're making it hard for me
I can't take my eyes away

Senorita, like to meet ya Baby, after I'm through You'll know what I wanna do Later on

I wanna watch you
Dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

Wanna watch you dance for me 'Cause you know you're gonna wind up Coming home with me but for now, baby

Wanna watch you dance for me
Dance for me, just for me
Later we'll be making love
But for now, girl just dance for me

I wanna strum you this guitar in my hands

But for now I
Wanna watch you dance for me
'Cause you know you're gonna wind up
Coming home with me but for now, baby
Dance for me
