

It Don't Matter To The Sun

Javier Colon

It don't matter to the sun
If you go or if you stay
You know the sun's gonna rise
Shine down on another day
There'll still be a tomorrow
Even if you choose to leave mmm
Cause it don't matter to the sun oh babe
But it matters to me yeah

It ain't gonna stop the world
If you walk out that door
And this whole world keeps on spinning round spinning round spinning round
Like it did the day before
See the little makes no difference
They just keep on keepin time
It ain't gonna stop the world out there
But it would be the end of mine
What can I say what can I do
I'm still in love what you

Hey ooo ooo
Oh yeah what can I say what can I do
I'm still in love are you

It don't matter to the moon
If you're not in my life
You see the moon just keeps on hanging round hanging round hanging round
Like it's just another night listen now
Find another place to shine hey
On some others lover dream
Cause it don't matter to the moon oh babe
But it sure do matter to me cause it don't matter to the moon

But it matters to me
