

Call You Bae

Jay Park

I see you sipping on your lemonade
Probably feeling underpaid
Damn you looking fine today
I really wanna call you Bae
I really wanna call you Bae

We vibing, it's exotic
Your body, I could see
what God envisioned
We sipping, start kissing
I'm wishing, leave with me and
push the limits

Get you alone with me, I'm animal
I eat your umph so good like Hannibal
Connect with you so good, compatible
I want you so extreme like radical
Reading your body language, legible
Eat up my umph so good like edible

I could see what God envisioned
Leave with me and push the limits

I see you sipping on your lemonade
Probably feeling underpaid
Damn you looking fine today
I really wanna call you Bae
I really wanna call you Bae

We vibing, it's exotic
Your body, I could see
what God envisioned
We sipping, start kissing
I'm wishing, leave with me
and push the limits

I really wanna call you Bae
I really wanna call you Bae

Get you alone with me, I'm animal
I eat your umph so good like Hannibal
(I really wanna call you Bae)
Get you alone with me, I'm animal
I eat your umph so good like Hannibal
(I really wanna call you Bae)
