

Explode

JbDubs

Let's have a real good time

Let's have a real good time
Tonight tonight
My teeth are stained with wine
Let's spin this bottle right

Fingernails scratch down my back
Fear I'll face a heart attack
Eyes roll back
We fade to black
And we explode

Oh, put me on a leash
Unless you want me to bite
Oh, just say sit and stay
Or I'll get up and walk away
Oh, my fuse is short
It's like I've never blown before
Oh, I'll love you till I
Oh, I'll love you till I
3-2-1 Explode

Let's keep this disco hot
So we kill the lights
Raise up a line of shots
It's going down tonight

Fingernails scratch down my back
Fear I'll face a heart attack

Eyes roll back
We fade to black
And we explode

Oh, put me on a leash
Unless you want me to bite
Oh, just say sit and stay
Or I'll get up and walk away
Oh, my fuse is short
It's like I've never blown before
Oh, I'll love you till I
Oh, I'll love you till I
3-2-1 Explode

Oh, it's getting rowdy
Oh, it's getting louder
All the sweaty people
Just want to take their clothes off
Just want to take their clothes off
Take their clothes off
Take their clothes off

Oh, put me on a leash
Unless you want me to bite
Oh, just say sit and stay
Or I'll get up and walk away

Oh, my fuse is short
It's like I've never blown before
Oh, I'll love you till I
Oh, I'll love you till I
3-2-1 Explode
