

Moving On

JbDubs

And I try to feel something
But you chase my heart away
And we're picking fights
Like we've given up on love
Like we've given up on love
Like we've given up on us

They're playing our song
But we don't sing along
What went wrong?
Now we're moving on
Moving on
Moving on

And we cry our crocodile tears
As we face the love that's not there
And we realize what we knew too long
That love don't live here anymore
Don't live here anymore

They're playing our song
But we don't sing along
What went wrong?
Now we're moving on
Moving on
Moving on

I kissed your cheek and turned around
You shut the door without a sound
And I knew I was gonna miss you

They're playing our song (they're playing our song)
But we don't sing along (sing along)
What went wrong? (what went wrong?)
Now we're moving on
Moving on
Moving on

I shut the door behind my back
The lights were off, it was pitch black
And I knew that I really miss you
