

Be Nice To Everybody

Jean Shepard

There you go drivin' in your big long car you got a house overl
ooking the town
But be nice to everybody on your way up you're gonna need 'em a
gain coming down

You don't even speak when we pass on the street you don't even
know your old friends
But don't get too proud you're gonna need the old crowd
Cause we all remember you when
There you go drivin' in your big long car

Not long ago you crossed over the tracks and now you don't know
me at all
Takes a long time you know for a big tree to grow but just a fe
w seconds to fall
There you go drivin' in your big long car
There you go drivin' in your big long car
You're gonna need 'em again comin' down
You're gonna need 'em again comin' down
