

## Passing Love Affair

Jean Shepard

Be sure before you say I love you that no other love you share  
I love too deep to have your thanks dear am I just a passing love affair

Don't feel my hopes and watch them tumble tell me how much you really care

Tell me the truth although it hurts me am I just a passing love affair

[ fiddle - piano - guitar ]

I know there was someone before me to end it up in deep despair

Don't make me love you then desert me am I just a passing love affair

Well I'd be like your other sweethearts whose love's not blue will you still care

Or will I find a love I'd hope for it's just a passing love affair
