It's Over

Jebediah

Long ago in days gone by It was much simpler for the guy And when The Cure sang "Boy's don't cry" I said I had something in my eye

You were right when you said I was wrong It's over

And right before the storm I told you everything I know thats not good form but feeling is the most peculiar spo rt I might get bored but I could never tell you that it's over

Spent too long staring out for stars I lost control and crashed my car I hadn't even got that far Left my good fortune at the bar

You were right when you said I was wrong It's over

And right before the storm I told you everything I know that's not good form but feeling is the most peculiar sp ort I might get bored but I could never tell that it's over

It's over.
