

# Freedom You Deserve

Jedward

Yeah, I see you for who you are  
So show your feelings and you'll go far  
Let them taste that flavour  
That you bring, its so wonderful  
Such a beautiful thing

Show them your identity  
Build your own reality  
Grab the freedom you deserve  
Leave the hate and hurt behind  
Do your best to free your mind  
Grab the freedom you deserve

Cause people come and go  
But I need you to stay  
Cause without you right here  
I'd be stuck in a maze  
Its time to be okay  
Living in your skin  
You gotta grab the freedom  
You deserve

I pray young hearts will survive  
Let me brighten your world  
When its black and white  
I pray young hearts will survive  
Let me be the reason that you smile

I'm hoping, you'll be alright  
Come rain or shine you'll never say goodbye  
I know this world can get dark at times  
Just promise me you'll wait till the sunrise

Look there's so much things worth fighting for  
Accept the highs and lows on this roller coaster  
Cause there's nobody like you in this universe  
So stand for what you believe always know your worth

Cause I see you for who you are  
So show your feelings and you'll go far  
Let them taste that flavour  
That you bring, its so wonderful  
Such a beautiful thing

Show them your identity  
Build your own reality  
Grab the freedom you deserve  
Leave the hate and hurt behind  
Do your best to free your mind  
Grab the freedom you deserve

Cause people come and go  
But I need you to stay  
Cause without you right here  
I'd be stuck in a maze  
Its time to be okay  
Living in your skin

You gotta grab the freedom  
You deserve

I pray young hearts will survive  
Let me brighten your world  
When its black and white  
I pray young hearts will survive  
Let me be the reason that you smile
