

Teenage Runaway

Jedward

There's more to us than flesh and bone
So look in our eyes to find our soul
Yeah, all the magic in us it can't be tamed
And nothings ever gonna put out this flame

Oh, I'm filled with wonder
Never felt so free
And I gotta search for grace and peace
Cause I'm a teenage runaway, runaway, runaway
Cause I'm a teenage runaway, runaway, runaway
Cause I'm a teenage runaway

And there's no time to hide
We're gonna find our way
Run a thousand miles
Yeah, they'll never take us alive
I know that we'll survive
Cause I'm a teenage runaway...

Have you ever felt like you weren't good enough
And little different well don't give up
We'll support each other through the highs and lows
Cause your built for something greater than you know

Yeah, through the thunderstorms I'll be by your side
Promise I give you my word, its gonna be alright

Oh, I'm filled with wonder
Never felt so free
And I gotta search for grace and peace
Cause I'm a teenage runaway, runaway, runaway
Cause I'm a teenage runaway, runaway, runaway
Cause I'm a teenage runaway

And there's no time to hide
We're gonna find our way
Run a thousand miles
Yeah, they'll never take us alive
I know that we'll survive
Cause I'm a teenage runaway...
