

# Country Enough

Jeff Bates

If you hear it on the radio and don't turn it up  
It ain't country enough

Six presets on the stereo in my new truck  
Five other buttons that I don't ever want to touch  
Some other station's playin' some other junk  
That folks don't listen to where I come from  
It ain't country enough

'Cause if you ain't cryin' or fallin' in love  
Then you ain't heard the good stuff  
If you hear it on the radio and don't turn it up  
It ain't country, it ain't country enough

Great big speakers in his little foreign automobile  
Tires lookin' flat like he's just about rollin' on wheels  
What he's playin's makin' his car thump  
That kind of noise'll make an eardrum bust  
It ain't country enough

'Cause if you ain't cryin' or fallin' in love  
Then you ain't heard the good stuff  
If you hear it on the radio and don't turn it up  
It ain't country, it ain't country enough

He ain't got nothin' but the bass and the beat  
If you want to keep it country come and ride with me

'Cause if you ain't cryin' or fallin' in love  
Then you ain't heard the good stuff  
If you hear it on the radio and don't turn it up  
It ain't country, it ain't country, it ain't country enough  
Country enough  
Country enough

Now that's what I'm talkin' about
