

Easy On Me

Jeff Black

Hey I know what you want from me
I've given all that I can give
You believe what you believe
But I think I need my soul to live

You say you don't want to tie me down
So what's with all these ropes and chains
I know the deal I've been downtown
And I know to come in out of the rain

Easy on me
Take it easy on me now

I've always had a wondering eye
I guess it was just passed on down to me
The price I pay is pretty high
To see this world the way I see

So I'm a flying out the window now
Riding on the setting sun
I'm getting back behind the plow
And I'll work until my work is done
