

You Belong to Me

Jeff Black

Forever's calling
The secret's safe with me now
Lying on our backs it feels like
We could slip right through the sky
And waltz round the old dance hall
Where the questions fall so far away
In our twist of fate I never wonder why

Think about our place in the competition
Did we really have that far to fall

Sweet reminders of
Our times above the wishing well
When the penny fell and we turned around to find
Sweet afterglow
Of our times below a shooting star
No matter where you are
You belong to me

Looks like diamonds on black velvet now
Now you come to me
In every little turn I take
I remember well the pirouette
And I cannot forget you let me kiss you then
That's when I first believed

Think about our place in the competition
Does it really matter now at all

Sweet reminders of
Our times above the wishing well
When the penny fell
And we turned around to find
Sweet afterglow of our times below
A shooting star
No matter where you are
You belong to me
Sweet reminders of our times above
The water line
Now you're mine
And forever's calling
