

21st Century

Jeff Scott Soto

Don't drink, don't smoke
If you don't think, don't vote
Red light, don't go
Peep show, porno

But everybody's gotta live with their lives
So who decided what's wrong, what's right?

These are the days where anything goes
If you know the way when you're trying to save your soul
These are the days yeah yeah,
21st centuty

Don't drink, don't drive
Give blood , save lives
Don't laugh , you'll cry
If you don't love, you might as well die

Eat bad , die young
You got talk shows , big guns
Stepdad, stepson
Love can get one

But everybody's gotta live with their lives
So who decided what's wrong, what's right?

These are the days where anything goes
If you know the way when you're trying to save your soul
These are the days yeah yeah,
21st centuty
