

Layin' It On The Line

Jefferson Starship

You see it every day in every way
We all hear the same routines
They all say that it's okay
Just let us take care of everything

So we lay it on the line

Layin' it on the line, layin' it on the line
Layin' it all, right on the line
Just layin' it on the line, layin' it on the line
Layin' it all, we're livin on the front line

I can see it in the faces
We got trouble in the streets tonight
And power keeps us in our places
And it doesn't matter if you're left or right

You lay it on the line

Layin' it on the line, layin' it on the line
Just layin' it all, right on the line
Layin' it on the line, layin' it on the line
Layin' it all, right on the line

Take it to the wilderness
Into the jungle sun
Lookin' for the voice of reason
Inside this Babylon

Got U.S. boys on foreign soil
Spillin' their blood to keep the peace
Cities will vanish in turmoil
While the sheiks lay sleepin' on the beach

We lay it on the line

Layin' it on the line, layin' it on the line
Layin' it all, right on the line
Just layin' it on the line, layin' it on the line
Layin' it all, right on the line
Layin' it on the line
Just layin' it all
Layin' it on the line
Just layin' it all
