

# New Love

Jeffrey Osborne

New love, mmm-hmm-mmm...  
New love, ooh-ooh-ooh...  
New love, oh-oh-oh...  
New love

I used to sit alone and wonder  
Just who I was and who was right for me  
Would I see lightning or hear thunder  
One girl's kiss was all it took  
To solve this mystery

New love, oh, what am I gonna do about cha?  
New love, keeping me 'wake at night  
New love, what am I gonna do about cha?  
New love, how do I know it's right?

I made believe she didn't matter  
Thought I'd prove it wasn't love  
By walking out the door  
I took a step and tears were  
Falling, falling  
Out her name, I turned around  
To get some more

New love, oh, what am I gonna do about cha?  
New love, keeping me satisfied  
New love, how am I gonna get around it?  
New love, that's what I need inside  
She's so understanding  
I was alone until she cared for me

I was so demanding  
Now I'm never gonna leave her  
Always gonna need her

Just a little taste of new love

New love, new love  
New love, new love  
Oh-oh...

All of you fellas better listen  
'Cause I found my baby's got  
Of hold of Cupid's bow  
And if there's magic in her kissin'  
Well, then, take a chance  
Relax and let the new love flow

New love, oh, what am I gonna do about cha?  
New love, keeping me satisfied  
New love, how am I gonna get around it?  
New love, that's what I need inside

(New love)  
Hey, I won't stop new love  
New love  
(New love)

Oh, hey  
(New love)  
I need some new love, baby  
(New love)  
New love  
(New love)  
I want some new love, new love  
(New love)  
Oh, hey  
(New love)  
I want some new love, new love  
(New love...)
