

Bring It Back

Jelly Roll

Ha, howdy, how's your mammy and them?
Goodnight, Nashville
This the old shit y'all wanted? Okay

I came from the bottom, I ain't fuckin' around
I came in, took the plow, and butchered the cow
Look at me now, Mondo lookin' now, watchin' and proud
Holdin' it down, Nashville sound, talk of the town
And I still shut down every bar that's around
I'm the Joker in my city, wear my scars with a smile
Instead of catchin' them feelings, they told me to catch a plane
I'm tryin' to mask the pain, heart racing, catchin' the drain
Them city lights shine bright in that darkest hour
I spent my whole life runnin' through haunted houses
Not afraid of the Boogeyman, how 'bout you?
Parents, tell your kids the truth, nightmares come true

They told me that I should bring it back (Bring it back)
They told me that I should bring it back (Bring it back)
They told me that I should bring it back (Bring it back)
Yeah, I guess they needed that

I been rollin' smoke and poppin' pills on the low (Low)
Shawty got a hunnid dollar bill for the blow (Blow)
I been rollin' smoke and poppin' pills on the low (Low)
Shawty got a hunnid dollar bill for the blow (Blow)
I been rollin' smoke and poppin' pills on the low (Low)
Shawty got a hunnid dollar bill for the blow (Blow)
They told me that I should bring it back (Bring it back)
(Bring it back)

It's my bell roll flow, yeah, I needed that
I saw Mondo in a dream, he told me, "Bring it back"
My city love me, so they hand me the keys
Me and my wife, a modern day Tommy and Pamela Lee
Hottest white boy in the game, I dismantle the beat
I wanna talk to Charlemagne, Envy, and Angela Yee (Whoo)
I swear I'm so fried, man, I swear I'm so high
Man, I swear I'm on fire, did this with no co-sign
I carry the torch, I ain't playin' no more
On top of that, my bitch is built like an Arabian horse
My fat ass ballin' out the gym, and I ain't playin' no sports
Finally left the streets alone, me and the game are divorced, I told 'em

They told me that I should bring it back (Bring it back)
They told me that I should bring it back (Bring it back)
They told me that I should bring it back (Bring it back)
Yeah, I guess they needed that
