

# I'm in Love with You

Jen Foster

Here we are, we're simply breathing  
Lying next to you, I'm needing nothing  
Else at all  
Every poet throughout history  
Has tried to capture love's great mystery in words  
Here's my shot  
Everything is bright and wide and blue  
Flowers popping up, spring is in bloom  
Lighter on my feet in brand new shoes  
I'm in love with you  
In your arms, there are no limitations  
Our hearts go beyond our language  
Words can't describe  
But I still need to document this  
Though it's hard to form a sentence  
I must try  
Everything is bright and wide and blue  
Flowers popping up, spring is in bloom  
Lighter on my feet in brand new shoes  
I'm in love with you  
I'm in love with you  
I'm in love with you  
I'm in love with you  
Everything is bright and wide and blue  
Flowers popping up, spring is in bloom  
Lighter on my feet in brand new shoes  
I'm in love with you  
Floating like a feather on a breeze  
Catch a ride upon a sparrow's wings  
Closer up to Heaven, angels sing  
I'm in love with you  
I'm in love with you  
I'm in love with you  
I'm in love with you
