

# This Is Me

Jen Foster

You and I  
have come this far  
Guess it's time  
I tell the truth  
Cause I have known  
for a while  
but I never wanted  
to bring shame on this family

Cause you asked me not to  
But if this God to whom you pray  
Is the same God  
I was raised to believe in  
you better take it up with him

This is me  
Here we are  
I know I may not  
be everything you wanted  
But this is all I got  
This is me  
Talk to God

He's the one you really ought to ask  
These questions  
Cause I'm all His fault  
This is me  
Why, you ask  
would I ever put you and dad through this  
When it's only, just a phase  
But who's to say

What's to come  
Who are you to judge my love  
Yes, I am different  
But my heart works just the same  
And I could lie to your face  
But you thought me that's no way  
To live my life  
So I'm taking your advise

This is me  
Here we are  
I know I may not  
be everything you wanted  
But this is all I got  
This is me  
Talk to God

He's the one you really ought to ask  
These questions  
Cause I'm all His fault  
This is me, yeah this is me  
Talk to God  
You say he speaks to us when we listen  
So listen

This is me  
I'm nobody's fault, listen to your heart  
Talk to God  
This is me (2x)  
You and I have come this far, guess its time.
