

# Have To Say Goodbye

Jennette McCurdy

Feels like I'm just getting to know you  
The conversation just got going  
It's been the perfect night  
Everything's just right  
I can see the sun is starting to set  
And we haven't even started yet  
Blame it on the moon  
For showing up so soon  
Caught up in a whirlwind  
That I don't want to ever end

Something 'bout this moment  
I just wanna hold it  
Never let it out of my sight  
Something 'bout this feeling  
I just wanna keep it  
Last thing I wanna do tonight  
Is have to say goodbye

Let's rewind and start all over  
Sing the song a little slower  
Try to memorize  
The way we feel tonight  
Everybody knows you can't stop time  
That doesn't mean you're gonna stop me from trying  
I just want to stay  
Right here with you, right here with you  
Caught up in whirlwind  
And all I need is you and me  
Right here together

Something 'bout this moment  
I just wanna hold it  
Never let it out of my sight  
Something 'bout this feeling  
I just wanna keep it  
Last thing I wanna do tonight  
Is have to say goodbye

Pretty soon tomorrow's gonna come around  
But, it's not here yet, so we won't let it bring us down  
Oh bring it down

Something 'bout this moment  
I just wanna hold it  
Never let it out of my sight  
Something 'bout this feeling  
I just wanna keep it  
Last thing I wanna do tonight  
Last thing I wanna do tonight  
Is have to say goodbye  
Goodbye

Something 'bout this moment  
Something 'bout this feeling
