

## First Taste Of Love

Jennifer Love Hewitt

Inside looking out of my window  
I can see you passing by  
With you, it's right where I wanna be  
I wanna call your name but I'm too shy

This emotion is strong  
I've had a crush for so long  
What I should do?

Whenever I see you, I wanna be near you  
I think that I'm feeling my first taste of love  
Whenever I'm dreaming at night, it's only about you  
My first taste of love, first taste of love

My friends tell me you're thinking  
That you're thinking about me too  
I got your number, sittin' by the telephone  
What will I say if I get through

Why do I hesitate  
Tell me, what will it take  
To get next to you?

Whenever I see you, I wanna be near you  
I think that I'm feeling my first taste of love  
Whenever I'm dreaming at night, it's only about you  
My first taste of love, first taste of love

This emotion is strong  
I've had a crush for so long  
What should I do?

Whenever I see you, I wanna be near you  
I think that I'm feeling my first taste of love  
Whenever I'm dreaming at night, it's only about you  
My first taste of love, first taste of love

I've been dreamin', dreamin' of you  
I've been feelin' my first taste of love  
I've been dreamin', dreamin' of you  
I've been feelin', oh, oh, oh, oh
