

## Just My Record Player

Jennifer Nettles

What am I supposed to do?  
Sittin' here, feelin' blue  
In the dark, all alone  
With just my record player on

I ask Dolly and Retha and Hank  
They always know how to ease my pain  
Another quiet night at home  
With just my record player on

Well, it's hard for a lady always waitin' on a man  
When the melody is playin', well, I'll ask myself to dance

Conway Twitty'd love to lay me down  
But you know Twitty ain't around  
But I think of you when I play that song  
With just my record player on

Well, it's hard for a lady always waitin' on a man  
When the melody is playin', well, I'll ask myself to dance

I've counted sheep, but I want the floor  
Played solitaire and I'm bored  
But another hand and it won't take long  
With just my record player on  
But another hand and it won't take long  
With just my record player on
