

# Vapor

Jennifer Paige

I can take you down to everywhere I go  
Never want to take you down that low  
Been starin' out my window  
Into negative space  
On the pavement from the elevator  
Down the corner shop to buy the paper  
Had a premonition you would be there too  
No way not today  
It's just more bad news

## CHORUS

I want to be vapor  
Want to rise above the year  
I want to be steamy  
And dry up all my tears  
Cause with my head in the clouds  
I'd be light upon my heels  
I want to be vapor  
I want to be vapor  
And disappear sometimes

My heart is heavy  
I feel I'm sinking in  
My sister tells me that I spread myself too thin  
Feel like standing in a plaster mold of me  
What I have is not contagious  
I see a smile on a passing stranger  
Think to follow them to see where they go all day  
Wanna know how it is they get that way

## CHORUS

I want to be vapor  
Want to rise above the year  
I want to be steamy  
And dry up all my tears  
Cause with my head in the clouds  
I'd be light upon my heels  
I want to be vapor  
I want to be vapor  
And disappear sometimes

I want to be vapor sometimes, oh yeah

I could take you down to everywhere I go  
But I never want to take you down that low  
Oh no Oh no

## CHORUS

I want to be vapor  
Want to rise above the year  
I want to be steamy  
And dry up all my tears  
Cause with my head in the clouds  
I'd be light upon my heels  
I want to be vapor  
I want to be vapor  
And disappear

I want to be vapor  
I want to be vapor  
And disappear sometimes

I want to be vapor sometimes  
I want to disappear
