

Every Day

Jeremy Zucker

I once said
Give my head a drink
'Cause my heart is full
I want everything

I should be married
Somewhere with children
Dance in the sunlight
Cries in the distance
If love is the answer
What is the question
See, I've been
Wandering round these city streets
But I'm not lost

Keep your head on straight
You'll see better days
Life's a choice we make
Every day

'Cause someone died
And my face went numb
We're all asking why
Does that make us dumb

I should be living
Somewhere in Paris
Chasing the skyline
Far from our parents
From what I imagined
I'm not so perfect
Though I've been
Wandering round these city streets
But I'm not lost

Keep your head on straight
You'll see better days
Life's a choice we make
Every day
Keep your head on straight
You'll see better days
Life's a choice we make
Every day
