

# Feelin' Free

Jermaine Jackson

Feelin' free, I'm on the road once again  
Like a drifter, I'm flying high on the wind  
If my heartbeat too loud it's the sound of the world at my feet  
My condition is too contagious to treat

Whoa, it makes you wanna shout  
Throw your hands up, say hey!  
Dance the whole night to day  
Sing those sad songs away  
Live your life out each day

Flying high, like a butterfly in the sky  
If you catch me don't hold down my wings and don't ask me why  
Taking in all the new sites I wanna see  
Just remember I'm not the same person that I used to be

Free, feelin' free  
Sailing on the winds that blows  
Say I'm all by myself  
Soaring where I wanna go, oh I just wanna...

Feelin' free, never letting that I could be down, yeah  
I'm always open bout this brand new freedom I found

Whoa, it makes you wanna shout  
Throw your hands up, say hey!  
Dance the whole night to day  
Sing those sad songs away  
Live your life out each day, hey, hey, ow!

Woo...  
Everybody wanna  
To be so free  
Do and say what they wanna  
But feel so free  
When we wake up in the morning  
You feel so free  
Do what we wanna  
But feel so free  
Inner so bad yeah, but feel so fine  
It's gonna happen some day  
Don't let it get by  
Free, free, free, free, free  
Feelin' free  
Free, free, free, free, free  
Feelin' free

Free to go where we want  
Free to say what we feel  
Free to be where we are  
You got to feel free  
Free

Free to live where we want  
Free to say what we feel  
Free to be where we are  
We gotta feel free

Free, free, free, free, free  
Feelin' free  
Free, free, free, free, free  
Feelin' free

Free to do what we want  
Free to say what we do  
Free to be where we are  
We gotta feel  
Free, free, free, free, free  
Feelin' free  
Free, free, free, free, free  
Feelin' free
