

Let's Sing Our Song

Jerry Reed

Woman I can tell what's on your mind cause I can see the loveliest shine
You're wantin' me to settle down and quit all my ramblin' around
Oh woman this heart of mine just loves one day at a time
Tomorrow is a brand new song and I might be a movin' it on

So baby let's just sing our song while we're together
Let's don't look no farther than today
Love me tonight just hold on tight and be my woman
And don't let what we're feelin' slip away

Baby you know that I ain't the kind
Who can settle down and walk on the line
And tomorrow I might be gone
So baby let's sing our song

Baby let's just sing our song while we're together...
Baby you know that I ain't the kind...
