

# Love Me Tonight

Jerry Reed

Oh, what a night for romancing,  
Stars in the sky above  
This is our chance for sweet romance  
Let's make this a night of love

Here we are together, the moon is hanging low  
There's magic in its silvery light  
It seems to say the time is right  
Love me tonight.

Life is so uncertain and no one seems to know  
How long we have to linger on  
Tomorrow we may both be gone  
Love me tonight

Oh let me feel your arms  
And let me feel your kiss  
Then if this great big world must end  
Oh let it end like this

My lips are yours forever, my heart is in your hand  
My love is yours to have, to hold  
Don't wait until the moon is old  
Love me tonight.

Oh let me feel your arms  
And let me feel your kiss  
Then if this great big world must end  
Oh let it end like this

My lips are yours forever, my heart is in your hand  
My love is yours to have, to hold  
Don't wait until the moon is old  
Love me tonight.
