

That's All Part Of Losing

Jerry Reed

Your memory just won't let me be
Keeps reminding me that I was wrong
And without your love I just can't go on

And I've learned to cry since you said goodbye
And I know that I will lose my mind most any day
But baby that's the price that you pay

Cause that's all part of losing that's all part of losing
Learning how to cry and wishing you could crawl off and die
That's all part of losing

Since you're mine no more life ain't worth living for
Now I know that you are everything to me
My mistakes were made but baby baby how I paid

And I spend my time searchin' through my mind
Hoping I can find a way to say I'm sorry
Sorry for the fool I've been beggin' baby try me again

Cause that's all part of losing that's all part of losing
Crying begging please and learning how to crawl on your knees
That's all part of losing baby baby that's part of losing
All part of losing
Crying begging please...
