

Time For Love

Jerry Reed

There was a time my world was so cold
No one to touch there was no one to hold
But now you are mine and it's time for love
Baby it's time for love

Life without love is the loneliest thing
Nights are so long when there's only your dreams
But now you are mine and it's time for love

How long I dreamed about these moments we share

Someone to want my love someone to care
Seems all those lonesome times were so long ago
And now that you're mine I'll never let you go I need you so

And I know together we'll find
Love that's gonna grow even sweeter in time
Now you are mine and it's time for love
Baby it's time for love
