

Every Other Way

Jes

Is it strained, when I call you
Or do you think, that I might forget
Oh your love, is radiating
The farther away
I go.

Do you count, on me now
And do you wait, up for me all night
I wish I could run, to you when you need me
You know I can't be far
For long

[Chorus]
Heart don't fail me now
Cause there is no time to waste
Don't shut me out, we shouldn't wait another day!
I've searched for you, on my hearts high speed chase
Hear me out, may be the only chance to say
Hold me now
I've said it Every Other Way
