

# Never Let Me Go

Jess Glynne

Never let me go  
Never let me go  
Never let me go  
Oh  
Never let me go  
Never let me go  
Never let me go

If I breathe a little deeper  
When will you notice that I really need ya?  
If I tell you all my secrets  
Would you listen, would you believe it?

I know sometimes I am difficult  
But I just wanted to let you know  
I've been waiting on you all night  
And I'll be waiting on you all night

Hold me  
Like I'm falling from the top floor  
Like my body's out of control  
Come on, show me  
That you'll never let me go, never let me go  
Save me  
Like I'm breathing in my last breath  
Pull me closer into your kiss  
Come on, show me  
That you'll never let me go, never let me go

Never let me go  
Never let me go  
Never let me go  
Oh  
Never let me go  
Never let me go  
Never let me go

Tell me, that you'll stop me drowning  
When I'm losing these battles all around me  
Tell me that the grass is never greener  
Pull me closer just so I can feel ya

No one needs to be alone  
Come on, won't you carry me home?  
I've been waiting on you all night  
Oh, I'll be waiting on you all night

Hold me  
Like I'm falling from the top floor  
Like my body's out of control  
Come on, show me  
That you'll never let me go, never let me go  
Save me  
Like I'm breathing in my last breath  
Pull me closer into your kiss  
Come on, show me  
That you'll never let me go, never let me go

Never let me go  
Never let me go  
Never let me go  
Oh  
Never let me go  
Never let me go  
Never let me go  
Oh

If you see a broken piece of glass  
Would you pick it up and let me know you got my back?  
Don't you let me plead, don't make me ask  
'Cause I lose my hope when you don't react on it  
If you see a broken piece of glass  
Would you pick it up and let me know you got my back?  
'Cause I lose my hope when you don't react on it

Hold me  
Like I'm falling from the top floor  
Like my body's out of control  
Come on, show me  
That you'll never let me go, never let me go  
Save me  
Like I'm breathing in my last breath  
Pull me closer into your kiss  
Come on, show me  
That you'll never let me go, never let me go, no no

Never let me go  
Never let me go  
Never let me go  
Oh  
Never let me go  
Never let me go  
Never let me go

Never let me go  
I don't know how to hide it  
When I'm all alone  
I need you right beside me  
So hold me close  
We both know where we find it  
Never let me go, never let me go
