I trusted you Yeah that would be my first mistake Yeah I... I've been lied to Your eyes are ice cold blue A mirror of the heart inside of you You can't walk back in my life You had your chance to be by my side I don't have to hear you cry to know Just go I gave you my word and I promised to love you Go, it's over You had your chance Just go There's nothing inside me that still feels connected to you To me you're already gone I got a new love now She's my new love now And she loves me so Takes me where you never took me Although you tried too Her eyes they read so true So different from the way it was with you I don't need you in my life Forgot what it's like to be satisfied I don't wanna hear you cry 'cause I know Just go I gave you my word and I promised to love you Go, it's over You had your chance Just go There's nothing inside me that still feels connected to you To me you're already gone Takin' a look at these photographs Fightin' my tears I try to relax 'Cause you came and you left and it all went by so fast Just go I gave you my word and I promised to love you Go, it's over You had your chance Just go There's nothing inside me that still feels connected to you To me you're already gone Just go I gave you my word and I promised to love you Go, it's over You had your chance Just go There's nothing inside me that still feels connected to you To me you're already gone

I got a new love now
I trusted you
And that would be my first mistake
