

God, I Love You

Jessi Colter

[Chorus]

God I love you God I need need you
Would you find a way to stay close today

[Verse]

If I walk a little softer if I try much harder
To see your face in everything today
Will you stay a little closer so I can hear you if you whisper
Would you find a way to stay right close today
Lord you've been so good and kindly
That if today you'd choose to leave me
I'd have to give you honor all my days
You've straightened every crooked byway
And you lead me on your pathway
Could you find a way to stay right close today

[Chorus]
