

I Was Kinda Crazy Then

Jessi Colter

Did you ever find out who wrote that pretty song
Was the road to Mexico diamonds or stones
Did you keep the gold piece that I placed in your hand
Were you ready when the cold wind hit the Rio Grande

I was kinda crazy then I needed lovers more than friends
Songs on your guitar played flowers across my scars
Hope you find a friend tonight hope you find she treats you right

Can you see the same moon that I see tonight
Keep your words a shining like a bullet bright
Let the world wear their heart like a big bulls-eye
Don't ever let them tell you right from the wrong
And did you ever find out who wrote that pretty song

I was kinda crazy then I needed lovers more than friends
Songs on your guitar played flowers across my scars
Hope you find a friend tonight hope you find she treats you right
