Love Me Back To Sleep

Jessi Colter

When I awake in the night to some old memory
Darling don't touch the light just come over here with me
And watch the world go away come as close as you can
Let your soft skin erase any bad dream I've had

And love me back to sleep again tonight you're all I need
Put my mind at ease again and love me back to sleep

And when I toss and turn from another sad dream
Darling don't say a word to let me know what you mean

(2x)
