

Without You

Jessi Colter

I hear you're going away.
I've come here to beg you to stay.
If you go, I will surely die.
If you go, I won't even try

To live life without you.
I won't fight without you.

R :Without you I can't go on
Without you I've got no song to sing.

Without you standing there
I don't even care for anything.

Without all the love you give,
You won't find me wanting much to live.

Without you, I can't go on.
Without you, I've got no song to sing.

R :Without you I can't go on
Without you I've got no song to sing.

Without you standing there
I don't even care for anything.

Without all the love you give,
You won't find me wanting much to live.

Without you, I can't go on.
Without you, I've got no song to sing.

R :Without you I can't go on
Without you I've got no song to sing...
