

I'll Take Your Heart

Jessica Andrews

Movin' up where you've never been
Tie your seatbelt, ooo...strap yourself in
Start a rumor, nothing to it
It's a dirty job baby, but someone's got to do it

I don't wanna be the lonely game in town
I just wanna be the only girl around
Yeah I'm gonna take it straight to the top
Never ever stop
Show you what I've got
I'll take your heart!

Cause boy you know it's gone
Leave you standing but you won't be alone
Take your rhythm and leave you out of time
I'll take everything and give you all of mine
I'll take your heart and you ain't gonna feel it
Can't do nothing babe, you know I'm gonna steal it
I'll take your heart but boy you know it's gone

Baby, look, just be good to me
Send me love, special delivery
Ain't in a movie
I ain't on TV
I'm a living loving breathing leading kind of lady

I don't wanna be alone at the end of the phone
I just wanna be the one that turns you on
Yeah I'm gonna take you straight to the top
Never, ever stop
Show you what I've got
I'll take your heart

Cause boy you know it's gone
Leave you standing but you won't be alone
Take your rhythm and leave you out of time
I'll take everything and give you all of mine
I'll take your heart and you ain't gonna feel it
Can't do nothing babe, you know I'm gonna steal it
I'll take your heart but boy you know it's gone

Some girls will leave you all alone
Some girls won't even take you home
But this girl is gonna turn you on
You know I'm never wrong
I'll take your heart

Cause boy you know it's gone
Leave you standing but you won't be alone
Take your rhythm and leave you out of time
I'll take everything and give you all of mine
I'll take your heart and you ain't gonna feel it
Can't do nothing babe, you know I'm gonna steal it
I'll take your heart but boy you know it's gone
