

# Never Had It So Good

Jessica Andrews

They could look all their lives  
And not find what we've got  
Up and down, all around  
Beneath every rock  
Our love is one of a kind  
Where you took my heart  
Is a whole different trip  
It's a new cup of tea  
I live for each sip  
Our love intoxicates my mind  
Your kisses tell me more than words can say  
Your touches, they just take my breath away

When we're together  
Nothing could ever be better  
Don't you know that I have never  
Never had it so good  
Never had it so  
Never had it so good

Round the block, round the world  
We can go anywhere  
Do a dance, sing a song  
We can do what we dare  
Our love is gonna take us there  
Your kisses tell me more than words can say  
Your touches they just take my breath away

When we're together  
Nothing could ever be better  
Don't you know that I have never  
Never had it so good  
Never had it so  
Never had it so good
