

Offa My Hands

Jessica Lea Mayfield

Standing outside a window
On the second floor
Voices inside calling
Knocking on my door

Before I jump into something that I'm not ready for...

[Chorus]

Gotta wash you offa my hands
Gotta wash you off
Every single DNA strand
Gotta wash you offa my hands

Writing down lame excuses
On my bedroom walls
Making a mess is easy
When you think you know it all

Cause every now and then you make me break a little law

[Chorus] x2

Gotta wash you offa my hands
Gotta wash you off
Every single DNA strand
Gotta wash you offa my hands

[Outro] - repeated

Offa my hands
Offa my hands
Offa my hands
Offa my hands
