

Caught Up

Jessica Sanchez

I can be your fire
You can be my lighter
Light me up and let me show you love
Love is for the taking
Babe you still amaze me
Let's burn flames and reignite our hearts

Think I'm caught up in my feelings
You the type to make me feel like that
Call it what you want yeah
I'm just being honest
You better not change your mind
'Cause you're coming home with me tonight
I want it, I want it, I want it
'Cause you're coming home with me tonight

Kiss me baby, love me harder
We can make it last forever
Kiss me baby, love me harder
We can make it last forever

Don't try to fight it
I know you like it
Don't wanna waste your time
I'll make it worth your while
My body on your body
Reaching a million degrees
It's a lot that I don't wanna leave
Your wish is my command baby

Think I'm caught up in my feelings
You the type to make me feel like that
Call it what you want yeah
I'm just being honest
You better not change your mind
'Cause you're coming home with me tonight
I want it, I want it, I want it
'Cause you're coming home with me tonight

Kiss me baby, love me harder
We can make it last forever
Kiss me baby, love me harder
(You're coming home with me tonight)
We can make it last forever

I want it
I want it
I want it
You're coming home with me tonight

Think I'm caught up in my feelings
You the type to make me feel like that
Call it what you want yeah
I'm just being honest
You better not change your mind
'Cause you're coming home with me tonight
I want it, I want it, I want it

'Cause you're coming home with me tonight
I want it, I want it, I want it
'Cause you're coming home with me tonight
