

# Forever in Your Eyes

Jessica Simpson

Eyes like fire, burn desire  
As we dance away into the night

This attraction fuels a passion  
That's just too strong for us to try and fight

Each moment we're together  
I just never want to end  
'Cause I could never feel this way again

R: 'Cause nothing else had ever felt so right  
To feel your body lying next to mine  
As the rhythm of your heart beats through me  
All through the night  
I never thought I'd ever realize  
A love that feels so close to paradise  
Boy I could spend my whole life living  
Forever in your eyes

Lips so tender, I surrender  
Everything I am is yours alone

When you touch me, all that I see  
Are feelings that my heart has never known

You're all I ever dreamed of  
You're my every fantasy  
Whoever thought an angel  
Could bring heaven here to me

R:

You're the one my heart beats for  
You're my everything and more  
It's a burnin' love I can't seem to ignore  
'Cause all the things I feel inside  
Are too strong for me to hide (baby)  
I need you by my side  
'Cause I could live forever in your eyes

R:

Forever in your eyes  
Forever in your eyes

Forever in your eyes  
Forever in your eyes

Forever in your eyes
