

# When I Loved You Like That

Jessica Simpson

You lit me up just like a match  
Then you burn me out just as fast  
You flew me high just like a kite  
Up in the air leaving me there  
Alone in the sky

Why you gotta be so complicated  
Give me the world then take it back  
When I loved you,  
When I loved you like that

You put my love in a bottle in the ocean  
Thinking you could control the tide  
Just so you can have the feeling  
of wanting me back one more time  
I held you like the morning holds the sun so carefully  
I let you shine  
So wild and free, so innocently  
I gave you every part of me

Why you gotta be so complicated  
Give me the world then take it back  
When I loved you,  
When I loved you like that

Now you're walking on the city streets  
And you're cold and you're alone  
Only thing keeping you company is  
the melody in your song  
Keep singing it  
Pour your scotch on the rocks  
And drink your misery down  
Go home and make love to her  
And picture me, picture me  
Yeah, picture me!

When I loved you like that (6x)
